The Controversial use of the Confederate Alert System

# The Controversial use of the Confederate Alert System

March 23, 2012

In the World of Halo Clans many clan have ways to declare or state if there is an issues or problem in there clan, whether it be a notice sent out to members or a message posted on their website ect ect. The Kaiser has noticed over the past few weeks that other clans have decided that an alert system is the best way to inform people in their clan about the status of their clans. So far the Kaiser has only noticed around three clans who have stolen the Confederacy system without permission, these clans would be; Fleet Com, Creed and the ODSST Hell jumpers. Now because of past dealing with some of these clans I know that they will say that I stole it, and that the Kaiser and the Confederacy have stolen the idea from them, this is not the case. In this document I hope to show to you that the Kaiser and the Confederacy of Annihilation started this alert system and that they have stolen it. I will first start off with the history of the Alert System. The first time I got the idea it was from *Star Trek* and there Alert System. So I found some Gif's of the alert symbols, as shown in figure 1.1. I understand perfectly that other clan might wish

to use my system, however the only thing I ask is that they ask me and give me credit for what is mine. My Gamer tag is godfathef and if you wish to come and ask me you can. Some people might say that I'm lying and that they have never stolen the Alert Symbols (shown in figure 1.1) so just to show everyone that I am not lying, please consider figure 1.2 of the creed clans website, the screed shot was taken on March the 23<sup>rd</sup> 2012. You can clearly see the resemblance between figure 1.1 and figure 1.2. now let us move on to another clan that has stolen the

Confederate Alert Status. You can also clearly see in Figure 1.3 that it is also the Confederate Alert Status, however in Figure 1.3 the image was taken from the Fleetcom

website. It was also taken on March 23<sup>rd</sup> 2012. Now neither the Creed or Fleetcom has asked premission to use the Confederacy of Annihilations Alert Status, as we request all people do. You can clearly see that they have taken it from us. You can also clearly see this in the ODSST Hell Jumpers site shown in Figure 1.4. Now These clan started to post our Alert Status symbols on there websites in December-March 2012. The Confederacy of Annihilation started the Alert Status system on October 2<sup>nd</sup> 2011. I will give the website URL of all of the Clans who are mentioned in this publacation on Page

Three. Figure 1.5 shows the Alert Status located on The website of the Confederacy of Annihilation It has not changed since October 2<sup>nd</sup> 2011. Central Com has also used the Notafacation on there website without giving us the credit (Notafacation shown to the right of Figure 1.5) Central-com website is

shown in figure 1.6.
